

LIBERTY LOAN PARADE STAGED BY SHOPMEN

BLAST IN SHELL LOADING PLANT

Large Number of Men Are Killed and Injured in Powder Explosion.

FIRE ADDS TO HORROR

Plant of T. A. Gillespie Shell Loading Plant Near Perth Amboy, N. J., Is Scene of Accident.

Perth Amboy, N. J., Oct. 5.—In a tremendous explosion at the plant of the T. A. Gillespie Shell Loading Company at Morgan, near here, from 50 to 100 men were killed and injured. This explosion, which shook the countryside for miles around and caused citizens of South Amboy to flee from their homes, was followed by a series of less severe explosions and by a fire which for hours defied the efforts of fire fighters summoned from all nearby cities and towns.

The number of dead and injured cannot be determined, until employees answer a roll call. Probably 2,000 men were in the plant.

25 Doctors Rushed to Scene.

Ambulances sent from here and carrying 25 doctors returned with many of the injured and for fear that the city hospital would not accommodate all the victims brought here, a hotel was prepared to receive the overflow. Ambulances dispatched from Elizabeth and other cities were reported to be taking other victims to those cities. United States base hospital No. 3 at Colonia sent ambulances and doctors to aid in the rescue work.

The plant was engaged in loading high explosive shells.

Soldiers Guard Ruins.

With the first explosion government officials telephoned to nearby camps for soldiers to serve as guards and several hundred, with a detachment of coast guards, were rushed to Morgan.

The plant, which employs 5,000 or 6,000 persons, covers an area of 12 square miles, and comprises many small buildings, situated along Cheesequake creek. The first explosion occurred in one of these buildings in which TNT was being made and the flames, spreading to other structures, caused a series of further blasts.

The structure first blown up was soon a roaring furnace and a cordon was thrown around it to prevent relatives of men employed at the plant from rushing into the flames in search of their dead.

For hours the firemen could make no effort to recover bodies owing to the intense heat.

Girl Sticks to Post.

A young woman employed at the plant as a telephone operator, was the heroine of the fire. With shells bursting around her, she stuck to her post, sending out calls for firemen and doctors.

Calmly she gave directions as to the quickest method of reaching the plant. Explanations regarding the cause of the explosion vary, but according to one account, excessive heat was applied to a vat of TNT. Another account had it that a shell which was being lifted fell and exploded.

The first blast shattered nearly all the glass in South Amboy, one and a half miles away.

As explosion followed explosion, the population became panic-stricken and fled.

(By United Press)

New York, Oct. 5.—Scores are believed to be dead and many were injured early today when the nation's greatest shell loading plant, the Gillespie Loading Company, of Morgan, New Jersey, was in ruins as the result of an explosion of T. N. T. last night. The explosions continued early today. At seven o'clock a blast shook Brooklyn shattering windows in Flatbush. Houses near the scene of the explosion were blown from their foundations. The military authorities took charge of the district, refusing to give out information.

New York, Oct. 5.—The Red Cross Motor Corps at the scene of the Morgan, N. J., Gillespie Plant explosion, estimate the total casualties at 500 including hundreds only slightly hurt by flying glass and missiles. The Newark, N. J., Evening Ledger says there are 137 dead.

WILLIAM C. GORGAS

Retires as Surgeon General of the Army.

Maj. Gen. Merritt W. Ireland, medical corps, nominated by President Wilson to be surgeon general of the army for the period of four years beginning Oct. 1, 1918, vice Maj. Gen. William C. Gorgas, retired on Oct. 5.

New Chancellor Announces Peace Program

(By United Press)

Zurich, Oct. 5.—Prince Max, of Baden, the new German chancellor, announced his programme to the reichstag according to today's advice. It includes the restoration of Belgium by means of an international fund, the revision of the Brest-Litovsk and Bucharest treaties by a congress of all the belligerents, the freedom of the seas, no payment of damages to France, the retention of Alsace-Lorraine, the return of the German colonies, and partial and progressive disarmament.

USE PRISONERS ON FARMS

Congressman Young Wants Germans in North Dakota.

Washington, Oct. 5.—Representative Young, North Dakota, proposed to Food Administrator Hoover the utilization of German prisoners of war on the wheat field farms of Mr. Young's state.

In urging his plan, Mr. Young said that due to lack of farm labor the 1919 wheat acreage of North Dakota would not exceed 60 per cent of last year.

SOLELY WARNS GERMANY

France Will Punish Ruthless Acts of Vandalism.

Paris, Oct. 5.—The French government has issued a solemn warning to Germany and her allies that the devastation of territory from which they retreat will be punished inexorably.

The warning says the German people who share in the crimes will bear the consequences with the authors and that those who order the devastation will be held responsible morally, penally and pecuniarily.

PLOTTERS SENT TO PRISON

Two Men Convicted of Attempting to Destroy War Plant.

Trenton, N. J., Oct. 5.—Convicted of attempting to blow up the Gould & Eberhardt machinery plant doing war work at Irvington, Dr. Frederick M. Bischoff of that place was sentenced in the federal court here to 25 years in the Maryland penitentiary. A 15-year term was imposed upon William Henemyer for complicity in the plot.

Wheat Growers Appeal to Wilson.

Washington, Oct. 5.—President Wilson is expected to grant an audience to a delegation of wheat growers who will ask that the guaranteed price of \$2.20 a bushel for the 1919 crop be increased to \$2.45. Failing to get this, the farmers' representatives will urge the president to appoint a committee to study the cost of production instead of waiting until next spring, as suggested in his statement at the time the 1919 price was proclaimed. The appeal was decided on at a conference.

FOE BUSY WITH TORCH

Country Behind German Lines in Flanders Is Ablaze.

No Indications Are Seen of Fresh Enemy Reserves on British Front.

With the British Forces in France, Oct. 5.—The British forces have made progress in the region of Fresnoy-Le-Grand, northeast of St. Quentin, though only meager reports of the battle in that sector have been received. The country behind the German lines in Flanders is ablaze virtually everywhere. From prisoners comes the information that the Germans are making hurried preparations to evacuate the dune country of Belgium along the sea coast. Dugouts are being blown up there.

In the Armentieres sector, where the retreat of the Germans continues, the British are now well to the east of Lens. Mercourt, southeast of Lens, has been captured by Haig's men.

Civilians Moved From Courtrai. The Belgians, together with French troops, have reached a point two thousand yards south of Hoogdele and one thousand yards southeast of the Capelle-Roulers road.

Civilians are being moved in a hurry from Courtrai, fifteen miles east of Ypres.

There are no signs of fresh German reserves anywhere. There is every indication of disorganization not only in the enemy infantry, but in the artillery. Riots are reported to have occurred among certain German units in which even their officers participated.

Franco-Americans Break Through German Defenses

(By United Press)

London, Oct. 5.—Franco-Americans have definitely broken through the whole front of the enemy's defensive line behind the Sulpice river west of Argonne, battle front dispatches say. South of the Aisne the German retirement seems to have ended temporarily. The Germans have now definitely retired behind the Kriemhild Stellung line in the American sector of the Champagne front.

British Progress--- Take 800 Prisoners

London, Oct. 5.—Further progress northeast of St. Quentin was made by the British last night, General Haig reported officially. Eight hundred prisoners were taken.

CANNON TO FIRE LIBERTY SALUTE

Shopmen organized today for a big Liberty Loan parade to take place this Saturday evening at 7 o'clock from the Y. M. C. A. building. Every man, woman and child who helped in the loan in this county is asked to join in the line of march.

Major J. F. Elkins will be the parade marshal. A cannon has been secured and will fire a salute when the parade moves. Big banners, pennants, etc., will be carried. Drum corps will be in line. Everybody help to make this parade a success for it commemorates the shops going over the top.

French and British Advance is Imperiling Germans

(By United Press)

Paris, Oct. 5.—French and American troops in the Argonne, Champagne and Rheims territory are imperiling the Germans in the Argonne and in the newly created pocket northeast of Rheims. The Franco-Americans are now strongly established on Orville tableland. The French have reached Arnes stream.

Balfour's Speech Great Britain's Reply

(By United Press)

London, Oct. 5.—The Telegram declares it has authoritative information that the only reply Great Britain has made to the Austrian peace proposals consists of Balfour's speech of September 16.

Furious Fighting on American Front

(By United Press)

With Americans Afield, Oct. 5.—Furious fighting continued today along the whole fifty mile front in the Argonne Champagne region. Heavy artillery and stupendous aerial activity is reported. Violent German counter attacks in the region of Fleille have been repulsed.

TEUTONS FEEL STRAIN

Finances Are Affected by Bulgarian Surrender.

More Than One Billion Francs Loaned to Balkan State by Central Powers.

Zurich, Switzerland, Oct. 5.—Bulgaria's defection is having a serious effect on the Central powers from financial as well as political and military reasons, because of the fact that they made advances to Bulgaria for the conduct of military operations.

According to the Vienna Neue Presse the first loan was for 250,000,000 francs, made in August, 1915, immediately before Bulgaria's entrance into the war. Another loan 500,000,000 francs was made in 1916. There were two other advances in 1916 and 1917, carrying the total above 1,000,000,000 francs. In addition to money, the Central Powers delivered large quantities of war material to Bulgaria.

The German loans are guaranteed by the Bulgarian tobacco receipts, but the Austrian loans are secured only by Bulgarian paper.

Turkish Deserters Demand Resignation of Cabinet Ministers

(By United Press)

Zurich, Oct. 5.—Ten thousand deserters from the Turkish army assembled outside of Constantinople demanded the resignation of Talat Pasha, the grand vizier and Enver Pasha, the minister of war. The ministers refused and dispatched government troops to attack the revolt. The result of the battle which followed is unknown.

Austria Making Efforts to Secure Peace

(By United Press)

Amsterdam, Oct. 5.—Replying to an alleged request by Austria-Hungary for a peace conference of all the belligerents Great Britain is reported to have demanded that the Austrian government explain what it means by a "non-committal conference." Austria-Hungary's request was made through Holland according to the Vienna correspondent of Berlin Tagblatt. Holland promptly notified all belligerents, he says. "We are laboring unwearingly in touch of peace," said Premier Werkele when interviewed. "We are already negotiating."

MAJ. GEN. CROZIER

Nomination as Ordnance Chief Is Withdrawn.

President Wilson notified the Senate that he had withdrawn the nomination for the reappointment as chief of ordnance of Maj. Gen. William Crozier. This nomination was submitted to the Senate on Dec. 13, last but the Senate failed to act upon it.

YANKEES DRIVE AHEAD 3 MILES

Surprise Attack Nets Great Number Prisoners, Guns and Supplies—French Aid.

REACH OPEN COUNTRY

British Cavalry and Tanks Pour Through Breach in Last German Defense Line—Big Teuton Withdrawal Impends.

With the American Army Northwest of Verdun, Oct. 5.—The Americans resumed the attack west of the Meuse and advanced their lines from a mile and a quarter to three miles. They captured Hill 240, north of Exermont and the villages of Gesnes, Fleville, Chery and LaForges.

In the face of heavy artillery and machine gun fire, Illinois, Wisconsin, Western Pennsylvania, Virginia and West Virginia troops have forced the enemy back to the Kriemhild position south of Noret wood.

With the American First Army, Oct. 5.—American troops attacking east of Rheims in conjunction with the French, have advanced nearly three miles. The battle is continuing. The Germans were completely surprised.

Following a rolling barrage for 2½ miles uphill, the Franco-Americans gained the day's objective before noon.

A great number of prisoners, guns and supplies was captured.

Franco-Americans are Driving Against Vouziers

(By United Press)

Paris, Oct. 5.—Franco-American troops are driving northward against Vouziers and are now within less than five miles of that important German base. The enemy's long range guns covering Vouziers, which had been installed near Sugny, and between St. Eleme and Semide are being hastily withdrawn. The Germans are reported evacuating the entire Moron Villiers grove.

Further east the French have taken Orville and Remont Chateau. North of Rheims the French are working their way across the Aisne canal. It would seem that unless the Germans withdraw from the Champagne salient they are in danger of being caught in a trap between the armies of Berthelot and Gouard.

Governor Burnquist Hits Non-Partisans

(By United Press)

Dassel, Minn., Oct. 5.—Governor Burnquist bitterly denounced the non-partisan league and leaders in his opening political speech of the campaign in Meeker county this afternoon.

Crown Prince Boris Becomes King

(By United Press)

Zurich, Oct. 5.—Crown Prince Boris has assumed the reins of government of Bulgaria following the abdication of King Ferdinand on Thursday according to Vienna dispatches.

U. S. SHIP SUNK; 50 DROWN

Cargo Carrier Manned by Bluejackets Collides With Tanker.

Washington, Oct. 5.—The American steamer Herman Frasch, a small cargo carrier manned by a navy crew and in the overseas supply service, has been sunk in collision with a loss of probably 50 of its crew. The vessel collided at night with the American tank steamship George G. Henry, about 150 miles southeast of Nova Scotia, and went down in seven minutes. It carried a crew of 12 officers and 76 men and only 41 survivors are reported.

FAVORS LEAGUE OF NATIONS

New German Chancellor Considers Plan Practical.

New York, Oct. 5.—Prince Maximilian of Baden, the new German chancellor, is a believer in a league of nations, according to a speech he delivered in Karlsruhe Aug. 22. The speech, which is quoted in the Cologne Gazette of Aug. 23, a copy of which has been received here, was delivered at the joint session of the Baden parliament on the occasion of the 100th anniversary of the granting of the Baden constitution. The prince is president of the upper chamber.

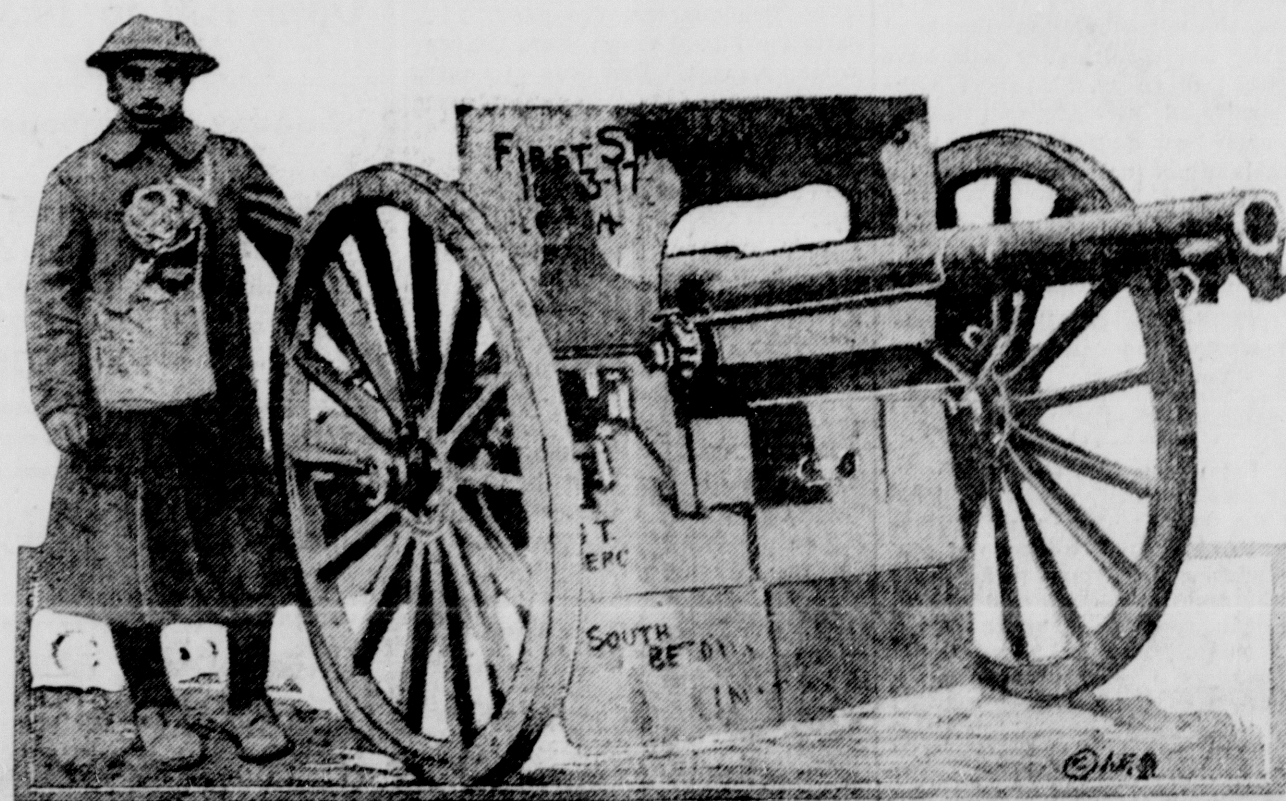

100 VESSELS IN SEPTEMBER

American Yards Continue Adding to Merchant Marine.

Washington, Oct. 5.—American ship production for September added 100 seagoing vessels to the merchant marine, the Department of Commerce announced. Production in gross tons aggregates 301,433, which is 18,000 tons more than the August output. The September production makes the 1918 total 1,357 vessels of 1,722,730 gross tons.

Britain Raises More Wheat.

London, Oct. 5.—Carl Vrooman, American secretary of agriculture and a member of the American agricultural mission now visiting Europe, writes congratulating the British nation on the enormously increased production of wheat and other foodstuffs. He says he understands the area in corn has been increased since the war by about 3,000,000 acres, or about 24 per cent, and asserts that such an increase in food production, in spite of the great war effort and heavy losses in men, is amazing.

This French gun was the first to be fired by the Americans in the war. The writing on the shield shows it was fired in October, 1917, when the first Americans went into trenches for training.

includes war tax. 103tf

TO ALL MILK CONSUMERS
OF BRAINERD

This is to advise you that we have
found it necessary to raise the price
of milk in this city to 12 cents to the
consumer. This was made necessary
after careful consideration of the
high cost of feeding and labor in
connection with production of milk.
The milk producers of today should
receive 10 cents a quart for milk at
the store, and the merchant, in turn,
will sell same to the consumer for
12 cents.

If the merchant finds it necessary to
make an extra charge for milk in
giving the consumer the service of
delivery and credit, they will have
the right to do so. However, the
bill must read, Milk 12c, and the ser-
vice must be a distinct and separate
charge and not included in the prices
of milk.

No dealer will be compelled to
make this extra charge, unless he
finds it necessary to do so, owing to
the cost of handling the credit ac-
commodation and delivery system.

Yours truly,
A. E. BERGLUND.

Fate of the Cliff Dwellers.

It seems that there can be no doubt
that the cliff dwellers were exter-
minated by their more savage and war-
like neighbors, the men being killed
and the women being adopted into the
tribe of the conquerors, though in some
cases migrations may have become
necessary as a result of drought or
pressure from outside tribes.

Doesn't Understand.

Suzette says she can't understand
how a small thing like a trolley pole
can keep a big thing like a street car
from running off the track.

"WHIRL 'O THE TOWN"
BY KNIGHTS COLUMBUS

Committee in Charge of Show In-
cludes A. B. Willing Chairman
and Five Coworkers

IT'S A MUSICAL FARCE COMEDY

Rehearsals Will Start Tuesday Eve-
ning at K. C. Hall, Large At-
tendance is Desired

The local council of Knights of
Columbus has made arrangements to
beam and prance before the foot-
lights.

This popular organization has hit
upon a happy idea. They have se-
cured James W. Evans, who last
spring gave the Elks show "America
Awake" and Mr. Evans and his as-
sistant, Miss Le Croix, are here now
ready for business. They presented
"America Awake" at St. Cloud this
week and returned with Mr. and
Mrs. P. G. Clarkson.

The Knights felt that they did not
want the opportunity to pass of se-
curing Mr. Evans and one of his
shows and at a committee meeting
last night the following were ap-
pointed as the show committee: A.
B. Willing, chairman; B. C. McNa-
mara, Wm. Garvey, Jack Hurley, A.
J. Cullen and Fritz Koop.

"The Whirl 'o' th' Town" is the
name of the big show and it is said
to be a rip roaring comedy. Not a
war play, but a genuine old fashioned
musical farce comedy with nothing
but laughs and funny characters.
Mr. Evans would especially like to
have as many of the "America
Awake" cast as possible and lots of
girls and fellows who believe that
the community should be kept alive
during these strenuous war times.

The stream of good news from over
seas makes everyone feel like singing
and keeping the dark hours bright.
"The Whirl 'o' th' Town" is guaran-
teed to do this being a hip hooray
cure for the blues.

Rehearsals will probably start on
Tuesday evening at the K. C. hall
and a large and enthusiastic atten-
dance is desired. If the committee
doesn't call you up with an invita-
tion, come anyway.

Edward J. Tice, formerly with the
H. W. Linnemann clothing company,
is in Headquarters Company, 11th
Battalion Signal Corps, Fort Leaven-
worth, Kansas. He was recently
sent from Minneapolis to the Kansas
station.

Frederick H. Sewall, son of Mrs.
I. F. Sewall, has arrived safely over
seas.

A. C. Falconer, in war service, is
home on a short furlough.

William H. Elliott, son of Mrs. A.
G. Elliott of Tower, who left Brainerd
April 26 for war service, has been
made a corporal in Co. Co., 350th En-
gineers.

Emil V. Olson, former Brainerd
man, is now a captain of infantry at
Camp Grant, Ill. His western home
address is 1808 South Adams St.,
Spokane, Wash.

J. B. Johnson has been informed
that Harry Franson has arrived safe-
ly over seas.

Every Day
Investing

THE thing that
becomes a daily
habit is the thing
that dominates our
lives, for good or ill.

"Shall I spend this small sum, or shall I invest
it?" becomes a daily question with an owner of a
Savings Account at this bank.

And every decision in favor of "investing" adds
a coin to capital, and confirms him one degree more
in the habit of every day investing.

More than that: It adds precision to his plan
and decision to his effort successful.

For the "savings bank way," thought by some
to be a slow way, is the one which has led to many
fortunes.

Bring this question home to yourself:
"It is my privilege to become an every
day investor; why not accept it?"

WOMAN'S REALM

LINEN SHOWER NEEDS MORE ENCOURAGEMENT

Response So Far From Brainerd People Yields Only Half the Allotment Required

MRS. R. CAMPBELL STATEMENT

Receiving Stations Will be Open from 7 to 9 O'clock This Saturday Evening

The response to the Red Cross linen shower is slowly going forward. The receipts of the committee in charge during the past three days have not reached the allotment figures as shown below:

Bath towels 180, hand towels 580, sheets 90, handkerchiefs 250, napkins 40.

Those articles received up to noon today amounted to approximately half of the above figures.

Mrs. R. T. Campbell, in charge of the collection of the shower, urges that every one able to come forward will do so and bring in any of the above articles as that our wounded boys over seas will be furnished with those hospital supplies which go to make their sojourn in a hospital more comfortable. The allotment is such that Brainerd people can fill it to overflowing.

For the convenience of those unable to get to the various receiving stations on Saturday before 6 P. M., it is announced that those stations will be open from 7:00 to 9:00 P. M. Saturday evening.

Also that anyone who is situated so that a trip to the station cannot be made, Mrs. Campbell will call for them by being notified at her home, 412 N. 4th St., Tel. No. 152.

Which Class is Yours?

Most of our people may be classified thusly: 1st, those who save every cent and even deny themselves necessities; 2nd, those who spend every dollar as they go, totally unconcerned about the future; 3d, those wise, considerate people who "make hay while the sun shines," and use their increased earnings in paying for improving and beautifying their own homes. Over forty of this class are calling monthly at our office and making payments either in liberty lots or homes and lots. Their faces fairly beam as they tell of the improvements they have made or the abundant food stuffs they have raised and the savings they have made. Two happy customers finished paying and took their deeds this week. We offer some good 50-foot lots for \$50—and houses and lots under present cost of houses alone, on very easy terms. Call in. Liberty Realty Co., by Nettleton. 11

Piano Aids in Cleaning.

A Philadelphian has patented a dust-filtering attachment which will change a player piano into a vacuum cleaner. You need only to disconnect the air pipe leading from the piano bellows, from the air motor. Insert the attachment in this, have somebody work the pedals and proceed with your parlor cleaning.—Popular Science Monthly.

SURPRISE PARTY

Given to Mrs. Nicholas Heller on Friday Afternoon—Soon to Remove to Tamarack

The friends of Mrs. Nicholas Heller, of Second Avenue, tendered her a surprise party on Friday afternoon. Mrs. Heller expects to move to Tamarack, Minn., in the near future, and was busy packing goods, when her uninvited guests arrived.

To say she was surprised would be putting it mildly. A program of music and other good things filled up the afternoon. Each lady had brought along a lunch, which was greatly enjoyed.

Before leaving Mrs. Heller was presented with a purse containing several dollars. Those in attendance were: Mesdames A. Halquist, T. F. Mooney, T. Toohy, Elza Warren, Elmer Warren, John Lawrence, Nicholas Kaufman, Rudolph Peterson, H. Grossman, Hugo Schwartzkopf, Jas. Thomas, H. Poppenberg, Peter Knutzen, A. G. Shanks, Mrs. Gardner, Mrs. Conklin, Mrs. Bush, Mrs. Halladay, Mrs. Winter, Mrs. Scharffen, Mrs. Schroeder, Mrs. McKenna, Mrs. Menz, Mrs. Doepeke.

Ministerial Association

The Ministerial Association will hold its first meeting of the fall at the Y. M. C. A. building on Monday morning at 10:30. A full attendance is desired at this first meeting as important business will be discussed. Rev. P. A. Peterson is president and W. J. Lowrie is secretary.

Presbyterian Social Club

A very enjoyable time was had at the meeting of the Presbyterian Social club last evening at the home of Mrs. Geo. Hess. Many thanks were tendered the host and hostess for opening their home for the club. The next meeting will probably be held at the home of Mr. Henry Temple, West Brainerd, the first of November.

AMUSEMENTS

At the Best Sunday

"The Knife," Alice Brady's latest Select Star Series picture, is a story of modern metropolitan life in all its uplifting and degrading aspects contrasted with the peaceful idylls of an old-fashioned Southern home. This picture, which was adapted by Charles Maigne from Eugene Walter's brilliant play of the same name and was directed by Robert G. Vignola, will be shown at the Best theatre on Sunday.

Bell Note Bird.

A remarkable piping bird is known as the bell-bird. Four species are known of which two are pure, glossy white; one is brownish with a white head and neck, and one is white with black wings. Its call is like the note, clear and melodious, of a beautiful bell. Sometimes it utters only one note, then rests. When several of these birds call and answer, the effect is beautiful. The bell-birds, which belong to the chatter family, are found in Central America south to Brazil.

BLACK SATIN EVENING GOWN

Black satin is the incomparable material for an evening gown for the society matron, and as shown in this beautiful model, it is indeed charming. The black bead trimming on the waist and on the tunic add to its attractiveness. The ermine wrap, with its cerise lining, is all that is needed to complete this elegant outfit.

NEW KIND OF TAM IN ERMINE

Aids Materially in Trickling Out an Old Gown to Do Service During Early Autumn.

The woman who is looking for smart hats to trick out with bravery an old gown for the early autumn should ask for a certain kind of tam in white ermine, which is considered very smart in certain selected circles. It is copied in fine white angora and in silk plush, and is worn by Paris women with dark gowns that have white collars. It is guileless of trimming and fits closely around the head, then goes out into a symmetrical crown, which is not crushed, but retains its stiff lines. It is worn without a veil.

There are modifications of this hat that look somewhat like the bearskin caps of the Grenadiers. These sinister looking caps which were created in the old Roman days to terrify the enemy, have been made essentially frivolous and feminine today in their resurrection for woman's heads by the addition of a curious and intriguing veil. It is of black mesh, worn straight over the stiff, high cap, caught slightly to the headband with a long basting thread, and left to fall as it will over the shoulders. So far, it is quite normal, but where it departs from normality, is in the brightly embroidered figure of a sailor wiggling with his colored signal flag. The mistake made here was in the embroidery of a sailor; the figure should have been taken from the army and not the navy in order to coincide with the shape of the cap. It is not unlike those worn today by our West Point cadets in full dress uniform.

TO USE THE SMALL FEATHERS

Ostrich Tips Now Being Worked Up Advantageously on Stunning New Fall Millinery.

Almost every woman has put away in her scrap box of millinery odds and ends a number of small ostrich tips, not handsome enough to be used as a hat trimming in the ordinary way, but almost too good to be thrown away. One always plans to have such feathers made over into something sometime—and this is just the time.

One of the stunning new millinery models of early autumn is a big hat of black velvet, with large, crushed velvet crown gathered at one side under a gold rose which seems to hold the folds of velvet in position. The wide velvet brim is edged with a black-and-gold cord and under the brim is a facing a pale bisque georgette over white satin.

Small black ostrich feathers are applied to this facing, radiating from the inside (or head size) of the hat, to the outer edge of the brim. A number of small feathers could be dyed black and used in this way with very good effect.

About New Winter Wraps.

Always the evening coats for a winter season are about the most ravishing part of a lavish wardrobe. And this season is no exception. Here there seems to be no attempt made at conservation, for both the capes and wraps are as ample as the law allows. Capes are made usually of velvet, with trimmings of gold galloon and lavish bands of fur. There are some soft satin capes with interlinings of wool, and these, in order to make them have the least semblance of warmth and winter, must be trimmed with fur in big and enfolding patches. The collars obliterate one's features altogether when wrapped about the throat to their full capacity.

Batiste Ruffling.

Some of the very prettiest white ruffling for collars is made of batiste of a fine, sheer quality, combined with narrow Val lace gathered on in little frills. Fine tucks are run between the bandings of the lace.

THE KITCHEN CABINET

Despise not thou small things. The soul that longs for wings To soar to some great height of sacrifice too oft Forgets the daily round Where daily cares abound, And shakes off little duties, while she looks aloft.

BANANA AS FOOD.

ANANAS are a most wholesome, nourishing food. Being deficient in flavor itself, the banana absorbs flavors readily and presents a good medium by which such flavors may be brought into notice, thus affording a great variety of combinations. Because of the lack of acid in its composition it should be a popular breakfast fruit. The cooked banana, even slightly cooked, is more easily digested than the raw fruit. Simply covering the ripe, thinly sliced fruit with hot cereal will cook it sufficiently.

Banana Croquettes With Lamb Chops.—Remove the peeling and coarse threads from five firm bananas; cut the fruit in halves crosswise, trim off the ends to make the halves symmetrical at the ends; roll in egg which has been beaten with a tablespoonful of water, then roll in sifted crumbs and fry in deep fat until brown. Drain on soft paper. Two minutes will be long enough for cooking. Serve with broiled lamb chops.

Compote of Bananas With Orange Sirup.—Remove the peel and coarse threads from six ripe bananas; let stand covered with boiling water a minute, then drain and pile in the form of a pyramid on a serving dish and pour over them a cupful of orange sirup.

Baked Bananas.—Pull down a section of the skin of each banana, loosen the pulp, remove the coarse threads and return the pulp to the skin, lay the fruit thus prepared in a saucepan and bake in a hot oven until the skins are blackened. Remove the pulp from the skins, bend in a half circle and place on a serving dish. Sprinkle with powdered sugar and chopped nuts as a dessert; or pour over a jelly sauce. Melt half a cupful of currant jelly, add a half-cupful of sugar and cook five minutes, then stir in a teaspoonful of cornstarch, made smooth with a little water; cook five minutes and add a tablespoonful of butter and a teaspoonful of lemon juice.

Nellie Maxwell

The Indian Crow.

Persons who have traveled in the Orient have much that is interesting and amusing to say about the Indian crow. This canny black creature is full of pranks; he makes much trouble, but also calls forth much laughter.

OUT OF THE GLOOM

Many a Gloomy Countenance in Brainerd Now Lightens With Happiness

A bad back makes you gloomy. Can't be happy with continual backache.

The aches and pains of a bad back Are frequently due to weak kidneys.

Doan's Kidney Pills are recommended for weak kidneys.

So Brainerd citizens testify. Mrs. A. Noakes, 313 S. Ninth St., Brainerd, says: "I had been feeling miserable and sick all over for about a year and didn't know what was wrong with me until my kidneys be-

NOTICE TO SUBSCRIBERS

Notices and statements are being sent to all our subscribers who are not paid in advance.

It is not a movement of the publishers that all subscribers must pay in advance.

It is an order of the U. S. government! We must obey. We would be very glad to continue the old system, but the government decrees differently. We trust that all our subscribers will remit before October 20th, on which date all papers not paid in advance must be stopped!

We hope all our patrons will stay with us.

THE BRAINERD DAILY DISPATCH

VIRILE AMERICANISM BEST EXPRESSED IN ENGLISH

"We believe these times demand the most virile and red-blooded Americanism, and for such there is no adequate expression except in the English language."

In such language the publisher explains the suspension of the Deutsche Anzeiger, one of the oldest German newspapers of Illinois, published since 1852, founded then by Rev. Wilhelm Wagner, and conducted ever since by the Wagner family.

Those ringing words apply equally well to the spoken word. To any American the idea of a German editorial or German sermon or German speech on American patriotism, this land of one language, one flag and one country, seems at the least an ironical way of instructing an American in patriotism.

The Kaiser's language is today a poor medium for expressing anything except kultur, woe and desolation.

When the war is over we may resume reading Goethe, Heine, Schiller and the others, but just now we will let the cobwebs accumulate in that section of the library until the Master Criminal of the Ages is given his quietus.

Gold in Old Diggings.

A large piece of virgin gravel has been found in the old Hilo diggings at Chaparral hill, near Downsville, Cal., by men who have been mining there on a small scale.

The gravel is very rich in gold and is of the same deposit from which several fortunes were taken in former years. A drift run 100 feet on the gravel has not disclosed its full extent. How this body of gold-bearing gravel came to be overlooked by the early miners is something of a mystery.

Suspicious of Him.

There seems to be no end to the number and kinds of questions asked of officers. The commander of a company of a negro outfit at Camp Zachary Taylor was called on the telephone recently by a negro who inquired: "Ah wants t' know, am mah 'asban' allowed t' git letters from 'adder wimmin at dat camp?"

Sugar Limited Everywhere.

The present household sugar ration with little chance of increase—its two pounds a month in America, two pounds in England, 1½ pounds in France and one pound in Italy.

WHERE TO WORSHIP

Swedish Bethany Church
Sunday school meets at 10 o'clock. There are classes for all, both Swedish and English. There will be no preaching service this Sunday.

Bethlehem Lutheran Church
Norwegian sermon on Sunday morning. English sermon in the evening. The girls' chorus will sing in the evening. M. L. Hostager, pastor.

St. Paul's Episcopal Church
Services for the 19th Sunday after Trinity will be as follows:
Morning prayer and sermon, 10:30 A. M.; Sunday school, 11:30 A. M.; evening and sermon, 7:30 P. M.
Please consider this notice as a cordial welcome to attend. Rev. Haus J. Wolner, Rector.

Peoples Congregational Church
The Peoples Congregational church William Lloyd Crist, pastor. Sabbath school, 10 A. M., lesson, "Abram Leaving Home," Genesis 12:1-9. Morning service, 11 o'clock, subject, "Overdriving." Evening service at 8 o'clock, subject, "The Sting of Sin." The choir will sing at both services.

Swedish Baptist Church
Morning service 10:30, subject, "At That Day." Sunday school 12 noon.
Evening service 7:30, subject, "As Were the Days of Noah." The choir will sing.

Remember that the time for the evening services has been changed from 8 o'clock to 7:30. We cordially invite you to worship with us. P. Alfred Peterson.

Presbyterian Church
Morning service at 10:30 o'clock. The theme of the sermon will be "John, His Relation to Christ." In the evening at 8 o'clock the sermon subject will be "The Sunny Side of Life." The Sunday school meets at noon; primary and Junior departments at 9:30; the C. E. at 7, leader Miss Ellen Dillan. Subject "All for Christ." The pastor will preach at South Long Lake at three o'clock. Midweek service Thursday at 7:30. A cordial invitation is extended to attend these services. W. J. Lowrie, pastor.

Christian Science
The Christian Science services will be held in Camels hall, Iron Exchange building, at eleven o'clock. Subject of lesson sermon, "Unrealities." Golden text, Job 11:14-15. "If iniquity be in Thine Hand, Put it far Away, and Let Not Wickedness dwell in thy tabernacle, for there shall thou lift up thy face Without Spot; Yea, Thou Shalt be Steadfast, and Shalt Not Fear."

Sunday school at ten o'clock. Reading room open daily from three to five except Sundays and holidays. All are welcome at these services.

First Congregational Church
The services in the First Congregational church this Sunday will be as follows:
Morning worship 10:30, sermon by Rev. G. P. Sheridan, "The Courage of Jesus." Special music by the choir.
Bible school 11:45.
Vesper service 4:30, sermon, "Heaven Opened." Music by the ladies' vested choir.
We invite you to worship with us. LADIES ATTENTION!—The Ladies' Aid will meet on Wednesday at the home of Mrs. E. P. Slipp. A large attendance is requested. Mrs. Slipp and Mrs. D. E. Whitney will entertain.
Rev. G. P. Sheridan, minister.

First Baptist Church
Morning service at 11 o'clock. The pastor will speak on the subject announced for last Sunday, "Self-Interest and Incentive to Right Living." Anthem by the choir.
Evening service at 8 o'clock, sermon subject, "Not Far From the Kingdom."
Sunday school at 9:45 A. M. This will be the annual Promotion Day and promotion exercises will be a part of the day's program.
B. Y. P. U. at 7 P. M. Topic, "All For Christ—Our Money." Group I will be in charge.
All members of the congregation are asked to take part in these services and visitors are cordially invited. R. E. Cody, pastor.

Roosevelt to Speak

(By United Press)

St. Paul, Oct. 5.—Col. Theodore Roosevelt will be in the Twin Cities Monday, October 7, to deliver two speeches in Minneapolis. He has expressed a desire to meet the republicans of Minnesota.

A reception will be held at the Radisson hotel in Minneapolis in the afternoon between 4 and 6 o'clock.

VIENNA INVITES HOLLAND TO ACT

Asks Netherlands Government to Urge Belligerents to Attend Conference.

ANOTHER PEACE MOVE

Delegation of Hungarian Statesmen Has Arrived at Vienna to Participate in Movement to End War.

Amsterdam, Oct. 5.—The Vienna correspondent of the Berlin Tageblatt says Austria-Hungary has requested Holland to invite the belligerents to take part in peace negotiations. The correspondent adds that Holland already has sent out the invitations.

U. S. Receives No Invitation.

Washington, Oct. 5.—Secretary Lansing authorized the statement that the American government has received no invitation from Austria-Hungary to take part in peace negotiations as outlined in a dispatch from Amsterdam quoting the correspondent of the Berlin Tageblatt.

Austria Moving for Peace.

Amsterdam, Oct. 5.—A delegation of Hungarian statesmen, headed by Premier Wekerle, has arrived at Vienna in connection with a new peace move, according to the Cologne Gazette.

The other members of the Wekerle party were Count Stephen Tisza and Count Julius Andrássy, former premiers of Hungary, and Count Albert Apponyi, the Hungarian minister of instruction.

A new and decisive step will be taken on the initiative of Baron Burian, the Austrian foreign minister, the newspaper says.

Regarding the negotiations at Vienna, Premier Wekerle said to the representatives of a Hungarian newspaper:

"This much I can tell you: We are again laboring untiringly in the interests of peace and we are already negotiating."

The Berlin Tageblatt's Vienna correspondent says the British reply to Baron Burian's recent peace note has been received by the Austrian government. According to the correspondent the note is politely couched and requests the Austro-Hungarian government to specify their peace proposals more precisely.

The correspondent adds that Prof. Heinrich Lammasch, jurist and professor in the University of Vienna, has been charged with drafting a memorandum on President Wilson's 14 points of peace for transmission to President Wilson.

AUDACITY BEWILDERS FOE

Yankee Flier Repairs Machine in German Lines and Escapes.

With the American Army Northwest of Verdun, Oct. 5.—With his airplane riddled by machine gun bullets and hemmed in by German machines, Aviator Ted Haight of New York City pretended to be out of commission and landed within the German lines. After hurriedly preparing his damaged machine he ascended and got back to his own lines, successfully dodging the astonished Germans on the ground and in the air.

BOHEMIA ABOUT TO REVOLT

Will Soon Declare Her Independence of Austria.

Amsterdam, Oct. 5.—The proclamation of the independence of Bohemia will be issued shortly according to the Budapest newspaper Azest.

"The members of the Czech National committee fear neither prison nor death," says the newspaper. "They all have made their wills and settled their material affairs and the independence of Bohemia is virtually assured."

1,800,000 SOLDIERS ABROAD

Influenza May Retard Future Troop Movements.

Washington, Oct. 5.—American troops abroad now number 1,800,000, members of the House military committee were informed at their weekly conference at the War department. Spanish influenza in camps and cantonments will retard shipments somewhat in the immediate future, they were told.

TO ABANDON BELGIAN COAST

Germany's New Line May Run From Antwerp to Metz.

Amsterdam, Oct. 5.—Germany, it is believed, is seriously considering abandonment of the Belgian coast and retirement to a straight line between Antwerp and Metz, thus giving up half of Belgium. Comment in German newspapers strengthens this belief.

Y. M. C. A. Does Good Work.

Paris, Oct. 5.—Twenty truck loads of food and tobacco valued at \$20,000 have been distributed among the American troops recently engaged on the Argonne front. Three hundred Y. M. C. A. workers are being employed in this task and most of the smokers and edibles were given to men under fire. At the Y. M. C. A. headquarters it was said that thousands of gallons of hot chocolate were served free while the men were awaiting the field kitchens.

WAS CAPTIVE IN HUN SUB FOR FIFTEEN DAYS

(By United Press)

London, August 1. (By Mail).—Among those who recently have been released from German prison camps and who have reached this country via Switzerland is a captain of a merchant vessel who was taken prisoner by the commander of a submarine after his vessel had been torpedoed, and who spent 15 days in the U-boat. This was the second ship in which the British captain had been torpedoed.

The captain's story follows:

"My ship was torpedoed without warning. The force of the explosion was so great that the bridge was wrecked, and when I recovered from the shock I found the ship was sinking. None of the crew was injured, and we were all able to get away in the boats.

"As we were in British waters, and it was broad daylight I did not fear that we would not soon reach land, but hardly had we pulled clear of the sinking ship than the U emerged. The commander summoned us to his vessel, and ordered me to go on board. After asking for details of my ship and cargo, he told me to consider myself a prisoner, and sent the boats away. I was at once taken below and the vessel dived.

"From what some English speaking members of the crew told me the submarine had been away from her base for some days. She was a fairly large craft, of recent numbering, having three torpedo tubes, two in the bows and one aft, and carrying 10 torpedoes. She was also armed with a 4-inch gun just forward of the conning tower. I had arrived just in time for the mid-day meal, stew with stringy meat which was probably horseflesh, small portion of sausage, and black bread. This bread as the voyage progressed, became moldered, and then some bread of lighter color which had been kept in an hermetically sealed receptacle was served out, but was even more unpalatable than the black bread. The other meals were breakfast and supper at which coffee, made of burnt barley and acorns, was served.

"The commander and officers of the U-boat fared the same as the lower ratings, but were able to supplement their allowances with tinned ham. Life on board the submarine was by no means pleasant. Forced as we were to keep below the surface to avoid the British war vessels the boat sweated and all spare clothing became saturated with moisture, while the atmosphere often became very foul, and breathing difficult. While we were below surface the crew would switch on the talking machine. That was the band which played triumphantly when the U-boat got a victim. Sinking of an innocent merchantman caused that crew as much joy as if they had sunk a war vessel.

Seven "Victories."

"While I was on board we had 'victory music' on seven occasions, for six steamers were torpedoed, and one sailing vessel sunk by gunfire, 39 shells being necessary to do this. The U-boat also attacked by gunfire several other steamers during the voyage; but had to submerge, owing to intervention of British war vessels.

"On the third day I gathered that the U-boat was about to carry out an attack on a convoy which had been sighted. The boat approached under water for some distance, and torpedoed a large steamer. Our whereabouts were evidently detected for we dived rapidly to a great depth. Hardly had the boat got on an even keel when we heard a tremendous explosion which caused the submarine to vibrate from stem to stern. It was a depth charge. The effect on the crew was evident. All stood trembling, with faces blanched with fear, not attempting to speak a word, expecting a second charge. For some moments we waited. Engines were stopped and all means were taken to prevent giving away our position. Minutes seem like hours in such a situation. I must admit that I was turning over in my mind whether I should ever see my family again. No further explosions, however, took place, and after lying some 18 fathoms deep for a long period we continued on our voyage.

Dreaded "Wasser Bomben"

"We had another experience with depth charges or 'wasser bomben' as the German sailors called them. The sailing ship referred to above had just been sunk by shell fire when two destroyers were sighted on the horizon, and down we went. By the microphones the propellers could be heard, and as the vessels came nearer we in the submarine could hear the thudding quite distinctly. To and fro the destroyers went, searching very carefully for us. Apparently they picked up a clue, for there were two loud explosions ahead—quite near enough to cause the submarine first to trem-

ble and then roll about as though in a heavy sea.

"Late the following night there was considerable rejoicing in the submarine. Germans had torpedoed an oil tanker which, according to the commander, had sunk in 30 seconds. The next day we seemed to have got out of the track of steamers, and I went into the conning tower and saw the officers amusing themselves by shooting at gulls or at empty bottles.

British Sub Near

"By this time the vessel evidently had reached the extreme outward point of her voyage, and on our return trip three Norwegian ships were stopped for fresh food. Just after this there was more excitement due to the discovery that a British submarine was in our vicinity. The crew could hear her, and they seemed in great fear lest she should attack. Again we remained submerged until night.

"The submarine was equipped with powerful wireless apparatus and every day, about 9 P. M. remained on the surface in wireless communication with the base. One of the officers kept a record of these messages. One night the news arrived of the American declaration of war. It was expressed the hope that they would be allowed to go on submarine service in the Gulf of Mexico in order to escape the severity of the North Sea.

"Eventually, the submarine arrived at Heligoland and I was taken ashore and handed over to a military guard. My only food was a crust of bread, a piece of cheese and some very weak soup. After remaining there a day and a half I was taken to Wilhelmshaven where again there seemed to be a shortage of food, and afterwards to Brandenburg, a workman's camp, in which I remained until Oct. 3. It was at this camp that I got the news of the murder of prisoners who were forced to remain in a hut which had caught fire. When I arrived at Brandenburg I was put in a large hut quite alone.

"My first night was a terrible experience. It was bitterly cold, and I had no covering. It was over-run by rats, so that I had to give up any thoughts of rest and tramp the floor until daylight. That morning I was given two dirty army blankets and an old mattress stuffed with paper and cardboard, on which to sleep. Here I came in contact with 300 victims of the Meuse, and subsequently was transferred to a special part of the camp set apart for captains of the mercantile marine, of whom there were about 40. The food was of the coarsest possible character. From Brandenburg I went to Holzminden, an officers' camp for all British, where the food was much better, but we were obliged to pay considerable sums toward our maintenance.

"While on our way to Holzminden one of the party produced a tin of butter which we shared with the German officer in charge. The tin had been emptied, and was about to be thrown out of the window when the officer begged for it and carefully scraped the whole tin for any remaining butter. Later I was transferred to Strohen where instead of current coin of the realm they issued stamps as camp money. From Strohen I went to Heidelberg, and while there at Christmas time we saw the attacks by our aviators on Mannheim. Three German aviators who took part in repelling the attack were killed while trying to alight.

"I was transferred to Switzerland and eventually was released and enabled to reach England June 19.

"At Brandenburg we were made to suffer various indignities, and were made to harness ourselves to carts which we had to draw through the streets to the station or postoffice, to fetch our parcels and any commodities to camp. It was at this camp also that I saw 300 Russian soldiers working in the last stages of consumption. The poor fellows could not get enough to eat and they would eagerly scrape discarded tins in the hope of finding particles of food. I have even seen German soldiers do the same thing. We were glad to search the cinder paths in the hope of finding coke or coal with which to cook our food."

DUAL MONARCHY IN DANGER

Oppressed People Are Clamoring for Radical Reforms.

Washington, Oct. 5.—Czechoslovak and Polish deputies in Austria have united in a demand for an explanation of that government's attitude toward oppressed subjects, diplomatic advances reaching here declared.

The demand, made in a motion before the reichsrath at the opening session, has thrown the Austrian government in a precarious position, diplomats assert. Austria is believed to be preparing to bring strong pressure on the German chancellor, Prince Maximilian to end the war at once, in order to avert a revolution in the dual monarchy.

DON'T DRINK SHIPS!

U. S. Food Administration.

Are you shocked to see the lady drinking ships? You drink ships every time you use sugar unnecessarily, in a beverage.

Seventy-five per cent of the sugar used in this country has to be brought here in ships. Every possible ship is needed for the transportation of troops and supplies to the other side.

Eliminate sugar as a luxury, and you release many ships for war purposes.

Teach your appetite to remember this—DON'T DRINK SHIPS.

A British Tommy and His "Mut"

This British Tommy picked up this poor little "mut" during a raid on British trenches in No Man's Land. His master, probably a French soldier, had lost him, and now the "mut" sleeps in the tin helmet of the Britisher.

100 PER CENT CO-OPERATIVE CREAMERY

A. J. McGuire, of Agricultural Extension Division, University Farm, Praises Farmers

SUCCESS STARTING CREAMERY

"It is a Credit to the City as Well as the Farmers," said Mr. McGuire in Speech

One hundred and forty-five stockholders of the Brainerd Cooperative Creamery, their wives and children and their friends were present at the formal opening of the Brainerd Cooperative Creamery Association creamery.

An address which pleased the farmers immensely was made by A. J. McGuire, of the agricultural extension division of the University Farm, St. Paul. He said in part:

"When I arrived in Brainerd today and saw your new cooperative creamery I was reminded of one of Shakespeare's characters who said: 'I will strive with things impossible, yea, get the better of them'. A few years ago I would have thought it impossible for the farmers around Brainerd to get together and build a \$16,000 cooperative creamery, but you have the creamery, and at the meeting today I did not see a man who looked as though he were sorry that Brainerd has such a creamery. It is one of the fine cooperative creameries of the state, a credit to the city as well as the farmers.

The cost of this creamery may cause some to worry, but let me explain how this creamery can pay for itself in a few years. I was at Wadena last month where the farmers had just completed a new creamery into which they had put \$40,000. Their old creamery had been such a success that they could afford to build this wonderful new plant. They had been taking in 300,000 pounds of butterfat a year. They were getting at least 5 cents a pound more for their butterfat than if they did not have a first class cooperative creamery. This 5 cents profit on 300,000 pounds of butterfat a year amounted to \$15,000 a year. They had made enough in three years previous to more than pay for the creamery.

"You have not had a successful cooperative creamery at Brainerd so you must pay for your creamery in the future, but your creamery can pay for itself in three years, or will make enough more for the farmers so they can pay for it in three years with this extra profit. Cannot the farmers who come to Brainerd bring in 100,000 pounds of butterfat during the next year or 300,000 pounds in the next three years? If you do your creamery will pay for itself.

"I understand that the price of butterfat in Brainerd for the month of August was 47 cents. The best cooperative creamery in Minnesota paid 61 cents a pound for butterfat during that month or 14 cents above the price paid here. This was the extreme between the best cooperative creamery and no cooperative creamery, but the rank and file of the 600 cooperative creameries of Minnesota paid 53 cents a pound for butterfat for August or 6 cents above your

price, but now with your cooperative creamery this will no longer be the case. You have the creamery, the equipment and the buttermaker for a 100 per cent cooperative creamery. With a sufficient amount of cream and cream of good quality you will have such a creamery in every respect.

A cooperative creamery teaches cooperation. It teaches community confidence. It teaches people to work together. It will not run of itself however. Cooperation in name only cannot succeed. There are certain requirements. The first is a sufficient amount of cream. This is the first work at hand for every patron to see that the creamery gets all the cream. If you have a neighbor who is not patronizing the creamery, talk with him until you have made him acquainted with the advantages of a cooperative creamery. A farmer who does not appreciate a cooperative creamery has not learned its value. The proper information will make him a patron.

This has been a bad season for producing dairy feed. There is very little clover and without clover, cows must be fed some mill feed such as bran. Bran is now cheaper than any kind of farm grown grains. You can buy bran or shorts in Brainerd for \$35 a ton. If you club together and order from your local dealer in car lots, you can get it cheaper than this. With the price of butterfat you can well afford to buy bran to keep your cows up in production. Whatever we may say about the advantages of a cooperative creamery, of working together, etc., it all counts for but little if the cows go dry. Take home some mill feed today if your cows need it and feed for the production of milk during the winter. Men who make cows do well generally make their cooperative creamery do well. The two go together.

Mr. McCarthy of the State Dairy and Food Department, gave an interesting address and urged the farmers to speak of the creamery as "our creamery."

Peter Stendal gave a report on the financial standing of the organization and three cheers for the creamery were given by the assembly.

Nels P. Olson of Maple Grove, president of the association, presided. The stockholders number 145 and cows pledged number 1100. On Saturday morning 2,300 pounds of cream were received.

The buttermaker is Helmer P. Hanson of Albert Lea, who worked in the state creamery there. Mr. McCarthy said he was one of the best buttermakers in the state.

A pleasant surprise was given County Agricultural Agent E. A. Colquhoun when Peter Stendal in behalf of the assembly presented him with a purse of \$50 in consideration of his untiring efforts in organizing the creamery association and assisting in the work of building.

At the meeting at the Chamber of Commerce on Friday evening, the speakers of the afternoon were present and the citizens there were joined by the milk dealers who had been in conference with County Food Administrator Andrew E. Berglund. A. J. McGuire spoke of the importance of the cooperative creamery and urged the people of Brainerd to support it.

TIME CHANGES ON SUNDAY OCTOBER 27

When the nation yawns and takes an extra hour's sleep on October 27, the date set for ending the daylight-saving season, there is grave danger of causing a great waste in the clock-making industry.

There must be no turning back the hands of the clock, time-recording experts declare in a warning to the public. Such action would fairly shatter the morale of the time recording and master clocks and all clocks striking the hours, and would require the services of an army of repair-men, thus causing an unnecessary waste of man power.

"Turn the hands around eleven hours," is the advice of the time service department of the Western Union company. By turning the hands forward until the time indicated is one hour less than at the start of the change the same result as stopping will be had.

CANVASSING 4TH LOAN CONTINUES IN COUNTY

County Chairman Carl Zapffe in Statement Speaks of Fine Results Attained in 5 Days

NIP AND TUCK IN BRAINERD

In Dean Lake Township Every Family Subscribed and Some Families Took Several Bonds

Trying to raise the county quota of a six billion dollar loan is certainly not a small task. Not only does it require much preliminary work to get things ready for a smooth and quick canvass but much clerical work and checking must be done during the campaign to be able to say just where we stand in the work that goes on daily.

Last night a large force of experienced machine operators were working hard and late on five adding machines in the First National bank offices getting totals. Telephones were kept busy between the county chairman and his assistants in different parts of the county looking for good news. It has been close picking and in numerous localities the allotted quotas have not yet been reached.

In Dean Lake Township every family subscribed and in some families several bonds were taken. In previous campaigns the record there was not near so good, but this time it certainly is something to be proud of, and the people there are to be congratulated.

The Inland Steel company subscribed \$75,000. The Rogers-Brown Ore Co. subscribed \$25,000. The Mahon Mining Co. subscribed \$15,000. At all the mines the men subscribed in large numbers and very liberally. The Ironton, Crosby and Trommald district came through with splendid results, and they made their quotas in one day.

The Weyerhaeuser companies of Little Falls subscribed to our credit also. The Merritt Development Co. and the Cuyuna-Minneapolis Mining Co. just reported that they would take \$2,500 for their two companies.

The State Board of Investment subscribed \$100,000 to the fourth loan and placed \$12,500 of it to the credit of Crow Wing county. Chairman Carl Zapffe says he is not inclined to accept it because he believes that the people of Crow Wing county will insist on raising their share as is expected, no matter what the quota.

In Brainerd it has been nip and tuck. It has now developed that of all the people in town that could be expected to subscribe, only 5 per cent did not respond to the notices sent them to go to the city hall and subscribe there. The canvassers that went out Wednesday and Thursday brought back very little money. Brainerd was counted on to pull the county out of any hole it might get into. So far Brainerd has always done a very large share of the work. In the first campaign it raised 81 per cent of the entire loan; in the second it raised 42 per cent; in the third it raised 34 per cent, but more money than ever before. Of the 34 per cent the N. P. shops raised one quarter. This time Brainerd was counted on for over \$235,000 of which it was expected all railway employees would raise \$100,000. It appears that Brainerd will barely slip over. As subscriptions usually come in long after the campaign stops, it may be that a safe margin will be reached.

The organization is now trying to get some of the mining companies to come in for \$25,000 or \$50,000 and make it sure that the county goes over by a safe margin. It is by no means sure that any company will do that. People must not get the idea that this is a sure thing. It has been a wonderful accomplishment to have met with such results as the present ones in only five days' time. People are urged to make their subscriptions if they have been overlooked, or to increase them if it is at all possible to do so.

Mr. Zapffe has wired Chairman Rogers at Minneapolis that the county quota is assured.

AGAINST LIBERTY BONDS

Rink oZerich Arrested at Woodrow Charged With Asserting "To Hell With Liberty Bonds"

Rinko Zerich, whose registration card states he came from Winton, St. Louis county, Minnesota, "blew in" to Woodrow on Friday and witnesses assert that in Patrick's restaurant he commenced to inveigh against the Liberty Bond issue.

"To hell with the Liberty Bonds. They're no good," it is asserted Zerich roared out. In his pockets jingled \$170 in cash, enough to buy several bonds. Woodrow people could not stand the talk of Zerich and sent for Sheriff Claus A. Theorin and he arrested the loud-mouthed individual and lodged him in the county jail.

"BLACK DIAMOND TRAIL" ASSOCIATION MEETING

Third Annual Meeting Was Held at Wadena, Henry I. Cohen Re-Elected President

W. E. VERITY NAMED SEC.-TREAS

Controversy on Between North and South Side Routes Along the Crow Wing River

All officers of the Black Diamond Trail association were re-elected at the third annual meeting of the Black Diamond Trail association, which route extends from Duluth to Fargo.

The officers are President Henry I. Cohen of Brainerd; vice president, J. P. Hardy, of Fargo; secretary-treasurer, W. E. Verity, of Wadena.

A new board of directors was chosen, consisting of one member from each county through which the highway passes.

G. G. Hartley of Duluth was given the thanks of the association for his proffered assistance in improving the trail in Aitkin county.

Closer cooperation will be asked from the Duluth and Fargo Commercial clubs, looking to the improvement of the highway.

The old controversy between the north and south side routes of the Crow Wing river, between Pillager and Motley, came to the front and was left to be settled by an inspection of the two routes in July or August, 1919, by three competent engineers to be selected by the State Highway Commissioner.

A larger membership is being sought for the association. Steps will be taken to secure improvement of the section of the Black Diamond Trail from Brainerd west to Cass county.

JURY QUICKLY DECIDES 2 CASES

Joe Bobnic and Mike Stimic, Each Given 90 Days for Keeping Unlicensed Drinking Places

CASES IN MUNICIPAL COURT

Jury in Last Case Was Out But 15 Minutes, Stimic Having Long Court Record

Juries in municipal court before Judge Walter F. Wieland made short work of two cases heard charging range men with conducting unlicensed drinking places.

Joe Bobnic, who conducted a pool room in Crosby, was given 90 days.

Mike Stimic was also found guilty and drew the same penalty of 90 days. In his case the jury was out only 15 minutes. Stimic runs a boarding house in Crosby close to the Ironton boundary line. He was arrested four times at Crosby, served 90 days before in the county jail for selling liquor without a license and has a government and other charges hanging over him. In a recent raid at his place Sheriff Claus A. Theorin and Indian Agent Reed found a sack with 100 pounds of sugar. Swanson & Swanson were attorneys for Bobnic and Stimic.

ELKS SUBSCRIBE TO BONDS

Brainerd Lodge Increases its Holdings in Liberty Bonds \$600, Total Now \$3,000

At the regular meeting of the Elks the order took \$600 worth of Fourth Liberty Loan bonds and its holdings now aggregate \$3,000.

New officers of the lodge installed were Exalted Ruler A. J. Ellison, Esteemed Leading Knight Herbert Peterson, Esteemed Loyal Knight John A. Hoffbauer, Esteemed Lecturing Knight B. E. Dunham, and the installing officer was Col. C. D. Johnson.

A class of six was initiated. The attendance numbered over sixty and it proved one of the finest sessions held this year. The retiring Exalted Ruler, R. R. Gould, was presented with a rocking chair, the lodge recognizing his recent entry into the ranks of the benedicts.

Plans are being completed for Memorial Day in December and the speaker secured will soon be announced. The range delegation and Staples visitors formed an especially large number of those present at the Thursday evening meeting of the order.

BOUND OVER

Two Women Taken in Custody at Ironton by Sheriff Claus A. Theorin Have Hearing

Eva Jackovich and Amelia Brown, arrested in Ironton by Sheriff Claus A. Theorin and charged with selling liquor without a license, were bound over to the grand jury.

FAT WOOD GETS A RED CROSS MEDAL

National Association Gives it to Him for Services Performed for Them Throughout Nation

NOW BOOSTS PAN IN COLORADO

Took Part in the Kiltie Program Given at Colorado Springs, Million Dollar Smile

You got to hand it to Fat Woods, he is getting a mention of Brainerd into every newspaper he comes across.

Here is what the Evening Telegraph of Colorado Springs, Colorado, says of our Tom:

Tommy Wood, who hails from Brainerd, Minn., is in town for a few days and has brought with him all of the sunshine and mirth it is possible for one man to tote around. Tommy weighs 490 pounds, is 23 years old and stands six feet four and a half inches high. In fact, he is the biggest man in the world and if you don't believe it you want to see him and he convinced Tommy strode into the office of The Evening Telegraph Saturday afternoon and introduced himself and here is his story:

"I weighed 17 pounds when I was born and people came from miles around to see me. I think I am the biggest man alive but I don't feel any bigger than anybody else. I have a great deal of fun everywhere I go, because everyone stops and looks me over. One time I was walking down the street and the fellow driving a Ford got so excited when he saw me that he forgot his machine, ran into a street car and nearly killed himself. No, I don't eat any more than the ordinary person. I never weighed more than 493 pounds and I will never weigh 500. I could weigh 600 pounds without any trouble, but it seems to me that if I weighed that much it would be too big for people or myself to comprehend."

"Wood has a waist measure of 72 inches and a chest measure of 68 inches. He has tried on numerous occasions to enlist in the army but his enormous weight has barred him. But he is doing the next best thing in devoting much of his time and talent toward helping the Red Cross and the Liberty loan campaigns.

Tommy is a splendid musician and plays and sings. He has volunteered his services and probably will appear at the Burns theatre with the Kilties band. He was given a medal by the National Red Cross association for services he has performed for them.

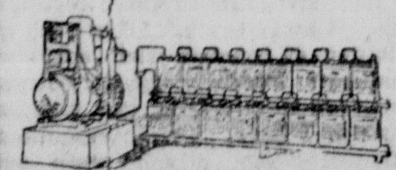

Mr. Wood is in the advertising department of the Pan Motor company and is driving overland demonstrating the cars. He has appeared in most of the army cantonments in the country as well as a large number of base hospitals and entertained another Colorado Springs paper the soldiers with his songs and ukele.

gives Tommy equal mention and states further that he is greeting thousands of people of Colorado at the fair grounds. As usual, the ladies are demanding, and receiving, the major portion of his time and million dollars smile.

The Right Word.

"She's very high and mighty. I don't like her attitude." "You mean attitude?" "Attitude fits this case," interposed a third member of the party.—Louisville Courier-Journal.

ALMOST WILLING TO GIVE UP

Mr. Gap Johnson is Beginning to Fear He Never Will Really Understand Women.

"Women is funny folks, 'most any way you take 'em," philosophically admitted Mr. Gap Johnson of Rumpus Ridge. "The oldest man in America can't tell what a lady will do next, and if he could, she wouldn't do it. Day before yesterday while we was setting around the dinner table wife slapped a few of the children into shape and then worter casually asked me if I knowed what day it was."

"Why, Wednesday or Thursday, I reckon," says I. "I hadn't paid much attention lately, but it's somethin' along there."

"It is Tuesday, the 10th," says she, kind o' sternly. "Do you know what happened 15 years ago today?"

"Huh, now! Let see," says I. Oh, yes!—that was the day a tree fell on me and busted me up considerable. I forgot—"

"No, it wasn't!" she snapped. "We were married 15 years ago today."

"Is that so?" says I. "Well, I knowed something happened to me, but I sorter disremembered what. Aw-hum! I—"

"And then I'll be switched if wife didn't rise up like a queen and sling mighty high every dish on the place at my head—dishes that cost me good money, too! The longer I live with women, the less I know about 'em!"—Judge.

War and Women

We hear much these days of what the women are doing on the battle-line. How few American women are strong enough to go to the front and endure the hardships of the men!

Help is offered, and is freely given to every nervous, delicate woman, by Dr. Pierce's Favorite Prescription. Remember ingredients on wrapper. No alcohol. In tablet or liquid form. All druggists. Tablets sell for 50 cents. In "female complaint," irregularity, or weakness, and in every exhausted condition of the female system, the "Prescription" seldom fails to benefit or cure. Pains, internal inflammation and ulceration, weak back, and kindred ailments are cured by it—ask your neighbor. It's a marvelous remedy for nervous and general debility, insomnia, or sleeplessness.

Write Dr. Pierce, president Invalids' Hotel, Buffalo, N. Y., for confidential advice and you will receive the medical attention of a specialist, wholly without fee—no charge whatever. Send 10c for trial package "Favorite Prescription Tablets."

MINNEAPOLIS, MINN.—"Some years ago my mother took the 'Favorite Prescription' during middle life and it proved itself to be very beneficial in every way. She was always most enthusiastic in praise of all Dr. Pierce's remedies."

"When my son was seventeen his face broke out with pimples so I had him try 'Golden Medical Discovery.' He took a couple of bottles and it helped clear the skin and proved to be a good tonic. I am glad to recommend these medicines because I know they are good."—Mrs. Geo. C. Townsend, 3035 17th Av., South.

FOE LEADERS PACIFISTS

Socialist and Centrist Chosen to Aid Chancellor.

Prince Maximilian to Announce Program Oct. 5.—Turkish Minister of Interior Resigns Post.

Amsterdam, Oct. 5.—The Turkish minister of the interior has resigned, according to a Constantinople message.

Amsterdam, Oct. 5.—An official announcement received from Berlin says Prince Maximilian of Baden has been appointed German chancellor.

Deputies Groeber, Centrist, and Scheideemann, majority social democrat, have been appointed secretaries of state without portfolios.

The official statement adds that Prince Maximilian also has been named Prussian foreign secretary. He will announce his program at a full meeting of the reichstag Oct. 5.

963 U. S. CASUALTIES FOR DAY

Yankees Lose 101 Soldiers, Killed in Action—588 Wounded.

Washington, Oct. 5.—General J. J. Pershing, commander of the American Expeditionary Forces, has cabled 963 casualties to the war department.

Names of 101 Americans, killed in action, headed the list, which carried the following casualties: Died of wounds, 67; died of disease, 24; died from accident and other causes, 7; wounded, 588; missing in action, 173.

America's war losses to date are 39,469, the war department announced.

The following names of men from the Northwest appear on the list:

Killed in action, Private Denzel Wagner, Mankato, Minn.

Died of wounds, Private Roy L. Hanson, Canby, Minn.

Wounded severely, Lieutenant Monte Woods, Bottineau, N. D.; Corporal Arthur Bahl, Pine Island, Minn.; Privates, Clarence E. Bailey, Minneapolis, Minn.; Francis William Barnes, Watertown, Wis.; Nelson B. Bates, Oronoco, Minn.; Joseph Luczak, Sturgeon Lake, Minn.; Levi Atherton, Waterville, Minn.; LeRoy J. Barr, Belvidere, S. D.; Frank T. Burke, Dexter, Minn.; Vincent M. Hardy, Minneapolis; Frederick Hauff, Golden Valley, N. D.; Edward Huff, Martin, N. D.; James J. Jindia, Lovestville, S. D.; George S. Otto, Stillwater, Minn.; John F. Quinn, Raub, N. D.; Howard Woodson, Piedmont, S. D.

Missing in action, Corporal Oscar E. Granlund, Rhome City, Minn.; Private John J. Albright, Pollock, S. D.

Food

QUESTIONS ANSWERED

FOOD.

Why will food win the war?

Because fighters can not fight without food, and the civilians of America, Britain, France, and Italy who support soldiers and sailors can not do so without food.

What must be done to make food win the war?

Food must be abundantly produced, economically manufactured, evenly distributed, and carefully conserved.

What has been the chief cause of the Russian trouble and of riots in other countries?

Lack of food.

What purposes does food serve?

It forms blood, tissue, bone; it repairs waste, furnishes energy for all kinds of work; it keeps us warm; it regulates the body processes.

Where does food come from?

Plants and animals, and to a slight extent from minerals.

What are the three great classes of food substances?

Protein, carbohydrates, fat.

Are there other important food substances?

Yes; mineral substances and vitamins.

What is protein food?

Foods whose special work is to build the body and repair waste.

How much protein is needed daily for the average man doing moderate work?

Two and one-half ounces.

What foods are rich in protein?

Milk, eggs, meat, fish, cheese, grains, dried legumes, such as peas and beans. These foods do not all contain proteins of equal value.

What are the fats?

Fats are the foods whose special purpose is to give heat and power to work. They also serve to improve flavor of foods.

Where are fats found?

Fats are found in meat, poultry, and nuts, and they are particularly familiar in form of butter, cream, and oils.

What are carbohydrates?

They are sugars and starches.

What is their function?

Like fats, their chief function is to give heat and power to work.

Where are sugars found?

In cane and beets, sirups, honey, and fruits, especially dried fruits.

Where are starches found?

In cereals, grains like corn and rice, potatoes, dried beans and peas, chestnuts, peanuts.

Why do cereals require long cooking?

Long cooking softens the outer layer of the grain and makes the interior contents more readily available.

What mineral substances are found in food?

Lime salts, iron salts, and various mineral compounds which serve for body building and regulating.

Where especially are they needed?

In children's diet.

What foods contain mineral substances?

Milk, fruit, and vegetables are important sources.

What is cellulose?

The cellular and fibrous tissue such as is found in fruits and vegetables is called cellulose.

What is its function?

It gives bulk to the diet and tends to prevent constipation.

What are vitamins?
